RE: Docket # 98P-0151/CP1

Dear Sir:

I am writing to request that meat from downed animals be classified as adulterated.

There should be no such animal at the slaughter house in the first place. Some are injured during transportation and that is a matter that needs changing also.

Further - there has been a bill before congress, H.R.2143, The Downed Animal Protection Act, introduced 7/31/95, and I am wondering if any action has been taken????? Or is this poor bill still wandering around for four years?

Even when decent laws are passed, one wonders how well they are enforced????

Hopefully,

*Anita W. Sluck*
